

ICPRAM 2022

SCOPE

The International Conference on Pattern Recognition Applications and Methods is a major point of contact between researchers, engineers and practitioners on the areas of Pattern Recognition and Machine Learning, both from theoretical and application perspectives.

Contributions describing applications of Pattern Recognition techniques to real-world problems, interdisciplinary research, experimental and/or theoretical studies yielding new insights that advance Pattern Recognition methods are especially encouraged.

Papers describing original work are invited in any of the areas listed below. Accepted papers, presented at the conference by one of the authors, will be published in the proceedings of ICPRAM with an ISBN. Acceptance will be based on quality, relevance and originality. There will be both oral and poster sessions.

Special sessions, dedicated to case-studies and commercial presentations, as well as technical tutorials, dedicated to technical/scientific topics, are also envisaged: companies interested in presenting their products/methodologies or researchers interested in presenting a demo or lecturing a tutorial are invited to contact the conference secretariat.

CONFERENCE AREAS

Each of the topic areas is expanded below but the sub-topics list is not exhaustive. Papers may address one or more of the listed sub-topics, although authors should not feel limited by them. Unlisted but related sub-topics are also acceptable, provided they fit in one of the following main topic areas:

1. THEORY AND METHODS
2. APPLICATIONS

AREA 1: THEORY AND METHODS

- Advanced Learning Methods
- Linear Models and Dimensionality Reduction
- Machine Learning Methods
- Model Representation and Selection
- Shape Representation
- Signal Processing
- Bayesian Models and Stochastic Methods
- Case-Based Reasoning
- Classification and Clustering
- Deep Learning and Neural Networks

Ensemble Methods
Evolutionary Computation
Feature Selection and Extraction
Knowledge Acquisition and Representation

AREA 2: APPLICATIONS

Audio and Speech Analysis
Motion Tracking and Action Recognition
Natural Language Processing
Robotics
Sensors and Early Vision
Virtual Environments
Bioinformatics and Systems Biology
Biometrics
Data Mining and Algorithms for Big Data
Document Analysis
Image and Video Analysis and Understanding
Industry Related Applications
Information Retrieval
Medical Imaging

KEYNOTE SPEAKERS

Mihaela van der Schaar, John Humphrey Plummer Professor of Machine Learning, AI, and Medicine, University of Cambridge, United Kingdom

Krystian Mikolajczyk, Imperial College London, United Kingdom

Tinne Tuytelaars, KU Leuven, Belgium

Nicu Sebe, University of Trento, Italy

PAPER SUBMISSION

Authors can submit their work in the form of a complete paper or an abstract, but please note that accepted abstracts are presented but not published in the proceedings of the conference. Complete papers can be submitted as a Regular Paper, representing completed and validated research, or as a Position Paper, portraying a short report of work in progress or an arguable opinion about an issue discussing ideas, facts, situations, methods, procedures or results of scientific research focused on one of the conference topic areas.

Authors should submit a paper in English, carefully checked for correct grammar and spelling, addressing one or several of the conference areas or topics. Each paper should clearly indicate the nature of its technical/scientific contribution, and the problems, domains or environments to which it is applicable. To facilitate the double-blind paper evaluation method, authors are kindly requested to produce and provide the paper WITHOUT any reference to any of the authors, including the authors' personal details, the acknowledgments section of the paper and any other reference that may disclose

the authors' identity.

When submitting a complete paper please note that only original papers should be submitted. Authors are advised to read INSTICC's ethical norms regarding plagiarism and self-plagiarism thoroughly before submitting and must make sure that their submissions do not substantially overlap work which has been published elsewhere or simultaneously submitted to a journal or another conference with proceedings. Papers that contain any form of plagiarism will be rejected without reviews.

All papers must be submitted through the online submission platform PRIMORIS and should follow the instructions and templates that can be found under Guidelines and Templates. After the paper submission has been successfully completed, authors will receive an automatic confirmation e-mail.

PUBLICATIONS

All accepted complete papers will be published in the conference proceedings, under an ISBN reference, on paper and on digital support.

SCITEPRESS is a member of CrossRef (<http://www.crossref.org/>) and every paper on our digital library is given a DOI (Digital Object Identifier).

The proceedings will be submitted for indexation by SCOPUS, Google Scholar, The DBLP Computer Science Bibliography, Semantic Scholar, Microsoft Academic, Engineering Index (EI) and Web of Science / Conference Proceedings Citation Index.

IMPORTANT DATES

Conference Date: **3 - 5 February, 2022**

Regular Papers

Paper Submission: **September 14, 2021**

Authors Notification: **November 15, 2021**

Camera Ready and Registration: **November 29, 2021**

Position Papers

Paper Submission: **October 29, 2021**

Authors Notification: **December 7, 2021**

Camera Ready and Registration: **December 21, 2021**

Workshops

Workshop Proposal: **September 22, 2021**

Doctoral Consortium

Paper Submission: **December 9, 2021**

Authors Notification: **December 22, 2021**

Camera Ready and Registration: **January 4, 2022**

Special Sessions

Special Session Proposal: **September 22, 2021**

Tutorials

Tutorial Proposal: **December 17, 2021**

Demos

Demo Proposal: **December 17, 2021**

Panels

Panel Proposal: **December 17, 2021**

Abstracts

Abstract Submission: **December 9, 2021**

Authors Notification: **December 22, 2021**

Camera Ready and Registration: **January 4, 2022**

SECRETARIAT

ICPRAM Secretariat

Address: Avenida de S. Francisco Xavier, Lote 7 Cv. C

2900-616 Setúbal - Portugal

Tel.: +351 265 520 185

Fax: +351 265 520 186

e-mail: icpram.secretariat@insticc.org

Web: <http://www.icpram.org>

VENUE

Available soon.

CONFERENCE CHAIR

Ana Fred, Instituto de Telecomunicações and University of Lisbon, Portugal

PROGRAM CO-CHAIRS

Maria De Marsico, Sapienza Università di Roma, Italy

Gabriella Sanniti di Baja, Italian National Research Council CNR, Italy

PROGRAM COMMITTEE MEMBERS

Andrea Abate, University of Salerno, Italy
Ashraf AbdelRaouf, Misr International University MIU, Egypt
Rahib Abiyev, Near East University, Turkey
Paolo Adesso, Universita' degli Studi di Salerno, Italy
Mayer Aladjem, Ben-Gurion University of the Negev, Israel
José Alba, University of Vigo, Spain
Fernando Alonso-Fernandez, Halmstad University, Sweden
George Azzopardi, University of Groningen, Netherlands and University of Malta, Malta
Antonio Bandera, University of Málaga, Spain
Stefano Berretti, University of Florence, Italy
Vijayakumar Bhagavatula, Carnegie Mellon University, United States
Monica Bianchini, University of Siena, Italy
Andrea Bottino, Politecnico Di Torino, Italy
Paula Brito, Universidade do Porto, Portugal
Alfred Bruckstein, Technion, Israel
Javier Calpe, Universitat de València, Spain
Modesto Castrillon-Santana, Universidad de Las Palmas de Gran Canaria, Spain
Miguel Coimbra, IT, University of Porto, Portugal
Juan Corchado, University of Salamanca, Spain
Luiza de Macedo Mourelle, State University of Rio de Janeiro, Brazil
Yago Diez, Yamagata University, Japan
Jean-Louis Dillenseger, Université de Rennes 1, France
Duane Edgington, Monterey Bay Aquarium Research Institute, United States
Yaokai Feng, Kyushu University, Japan
Julian Fierrez, Universidad Autonoma de Madrid, Spain
Giorgio Fumera, University of Cagliari, Italy
Markus Goldstein, Ulm University of Applied Sciences, Germany
Petra Gomez-Krämer, La Rochelle University, France
Bernard Gosselin, University of Mons, Faculty of Engineering, Belgium
Michal Haindl, Institute of Information Theory and Automation, Czech Republic
Laurent Heutte, Université de Rouen, France
Kouichi Hirata, Kyushu Institute of Technology, Japan
Sean Holden, University of Cambridge, United Kingdom
Su-Yun Huang, Academia Sinica, Taiwan, Republic of China
Akinori Ito, Tohoku University, Japan
Yuji Iwahori, Chubu University, Japan
Sarangapani Jagannathan, Missouri University of Science and Technology, United States
Xiaoyi Jiang, University of Münster, Germany
Sotiris Kotsiantis, Educational Software Development Laboratory, University of Patras, Greece
Kidiyo Kpalma, Institut National des Sciences Appliquées de Rennes, France
Malgorzata Kretowska, Bialystok University of Technology, Poland
Marek Kretowski, Bialystok University of Technology, Poland
Adam Krzyzak, Concordia University, Canada

Marco La Cascia, Università degli Studi di Palermo, Italy
Young-Koo Lee, Kyung Hee University, Korea, Republic of
Josep Lladós, Universitat Autònoma de Barcelona, Spain
Eduardo Lleida, Universidad de Zaragoza, Spain
Javier Lorenzo-Navarro, Universidad de Las Palmas de Gran Canaria (ULPGC), Spain
Marco Maggini, University of Siena, Italy
Elena Marchiori, Radboud University, Netherlands
Boris Mirkin, NRU Higher School of Economics Moscow RF, Russian Federation
Delia Mitrea, Technical University of Cluj-Napoca, Romania
Ramón Mollineda Cárdenas, Universitat Jaume I, Spain
Muhammad Marwan Muhammad Fuad, Coventry University, United Kingdom
Marco Muselli, Consiglio Nazionale delle Ricerche, Italy
Amine Nait-ali, University Paris-Est, France
Jakub Nalepa, Silesian University of Technology, Poland
Mita Nasipuri, Jadavpur University, India
Mikael Nilsson, Lund University, Sweden
Mark Nixon, University of Southampton, United Kingdom
Yoshito Otake, Nara Institute of Science and Technology, Japan
Kalman Palagyi, University of Szeged, Hungary
Mikhail Petrovskiy, Lomonosov Moscow State University, Russian Federation
Vincenzo Piuri, Università degli Studi di Milano, Italy
Jagath Rajapakse, Nanyang Technological University, Singapore
Sivaramakrishnan Rajaraman, National Library of Medicine, United States
Oriol Ramos Terrades, Centre de Visió per Computador - Universitat Autònoma de Barcelona, Spain
Philippe Ravier, University of Orléans, France
Daniel Riccio, University of Naples, Federico II, Italy
Rafel Rumi, University of Almería, Spain
Antonio-José Sánchez-Salmerón, Universitat Politècnica de Valencia, Spain
Carlo Sansone, University of Naples Federico II, Italy
Michele Scarpiniti, Sapienza University of Rome, Italy
Gerald Schaefer, Loughborough University, United Kingdom
Friedhelm Schwenker, University of Ulm, Germany
Mu-Chun Su, National Central University, Taiwan, Republic of China
Eulalia Szmids, Systems Research Institute Polish Academy of Sciences, Poland
Monique Thonnat, INRIA, France
Edmondo Trentin, Dipartimento Ingegneria dell'Informazione, Università degli Studi di Siena, Italy
Ernest Valveny, Universitat Autònoma de Barcelona, Spain
Antanas Verikas, Intelligent Systems Laboratory, Halmstad University, Sweden
Asmir Vodencarevic, Siemens Healthcare GmbH, Germany
Laurent Wendling, Paris Descartes University, France
Slawomir Wierzchon, Polish Academy of Sciences, Poland
Jing-Hao Xue, University College London, United Kingdom
Ghada Zamzmi, National Institutes of Health, United States
Pavel Zemcik, Brno University of Technology, Faculty of Information Technology, Czech Republic

Bob Zhang, University of Macau, Macau

Reyer Zwiggelaar, Aberystwyth University, United Kingdom
